

# Leadership through data insights

## Financial and Workforce Benchmarking

*Powerful financial and workforce data which provides real insights into the state of the NDIS sector*

- Australia's most well-regarded service providers are participating and benefiting from greater insights (large and small).
- In FY22, participating members represented **\$4.8 billion in revenue**.
- **Granular postcoded data** across **4 continuous financial years**, allowing you to **compare performance to your peers**.
- Designed for **providers of Core Supports**, as well as **Support Coordination and Therapy supports**.
- Deep dive into **workforce, wages and salary, utilisation and financial data**, down to the service level.
- **Highest level of data integrity** for participating members.
- Online analytics via a Microsoft **Power BI platform**.
- You can benchmark key metrics to **drive operational improvements**.
- Ability Roundtable **develops White Papers to tell the sector's story** and helps to **influence NDIA policy decisions** with real data.
