

Leadership through data insights

Supported Independent Living Benchmarking

Insights that drive SIL business improvements and influence policymakers

- Australia's most well-regarded SIL service providers are participating and benefiting from greater insights (large and small).
- A **5-year continuous data** set covering **more than one third** of SIL market.
- We design our benchmarking product with participating members, so you can **compare performance against your peers**.
- Granular Postcoded data – deep dive into **vacancy management, resident profile and workforce** down to the worker, resident and dwelling level.
- **Highest level of data integrity** and access to our online analytics via a Microsoft **Power BI platform**.
- **We deliver data-driven communities of practice that focus on innovation and best practice to drive improvements in your organisation**.
- Ability Roundtable **develops White Papers to tell the sector's story** and **helps to support NDIA policy decisions** with real data.
- Annual series of **briefings and facilitated meetings**, including **annual 2-day national meeting**, supports members to identify improvement opportunities.
